--> Comment Text :  
As a resident of Nevada, I can't see why neculear wasth should be stored in Nevada. As  
i see it Nevada produces no neculear waste. But we are expected to store it for the  
whole country.

Nevada is prone to earth quakes, what if one should happen in the next 10 or 20 years.  
As a resident of Southern Nevada I say no to Yucca Mountain as a storage dump.
